

11/15/22 Jesters Meeting

Members in attendance: Travis, Aneesh, AJ, Solus, Lindsey, Faez

Goal for meeting: Plan out rest of website

Who is working on what:

AJ

- API for jokes, work on the filter function

Aneesh

- Working on the display page for the jokes. Probably have them as rows on a table with buttons to add/remove them from profile.

Faez

- Working on the login-register redirect and make them displayed correctly
- Making the user input the right URL-password-username
- In register page if the username is used pop a message to notify the user that the username is used
- Resize the profile image in menu2.ejs

Solus

- Profile needs to display current information.
- Clicky on the profile buttons make modals go brr.
- Gotta write the APIs to actually update the info once the modal goes hi.
- Planning to go to office hours this Wednesday.

Lindsey

- Test cases
- Help solus with profile display, if needed
- Security question???

Travis

- Test cases
- Helping display profile page correctly
- Final PDF deliverable and presentation organization
